

The Origins of Humanity – Q&A

Eluña Noelle

- 00:00:00 So nice to see you all right now. And get to see your faces. Oh gosh, I am so grateful. You know, that's one thing about technology. Very grateful that we get to, yeah, see each other's, faces. And I think we're streaming on YouTube now. If we are, hello, welcome. You're just, hearing me acknowledge the love that I have for the people who are in this Zoom room with, me. That is my circle membership. And so we meet in Zoom and do live events together. And, this is one of those experiences that I am also opening up to the public. And so if you are, joining on YouTube, thank you very much for being here. I would like to just take a moment, before we dive in and invite you to close your eyes. Relax your body. Allowing all of you to be, soft. Allowing your face to soften. Allowing your neck muscles and shoulders to soften.
- 00:01:31 Allowing your mind to soften. And allowing your awareness to soften into your heart space. And to be aware of your breath and the energy in your heart. If this is your first time, today tuning into your heart, become curious about what is there right now for you. What, is your heart telling you in this moment? What is the sensation in your heart in this moment?
- 00:02:55 I want to invite you now to set an intention with your heart. Not your mind. But with your heart. How will you stay present with your heart throughout our time together today? How can, you keep one ear turned toward your heart while another listens to the outside world? There will be a lot of information that comes through today. Some of it may feel contradictory.
- 00:04:06 Some of it may feel surprising. Some of it may feel natural. And it's important for you to allow your, body to be relaxed throughout our time and to stay present with your heart during this time together. So that, you can listen to your own messages that come through you, which are the most important messages, to listen for. So if you would like to affirm that intention by placing a hand over your heart, that hand is a signal that you will be present with your heart and can be used as an anchor, throughout this time that if you have drifted away from your heart, bringing your hand back, over your heart, can remind you of where your focus should be or your attention can be.
- 00:05:20 Taking a deep breath in and letting it go and relaxing. And when you are ready, gently opening your eyes to come back. So we have this beautiful Q&A. I have not done a, public Q&A in quite some time, actually. And I just want to acknowledge that the members, who are part of the circle community that I mentioned, they are these heartfelt beings, are really the reason why I am able to offer a public Q&A like this. So I would just like to acknowledge, them and say thank you very much to each and every circle member. They are the reason why I can hold, this for YouTube. So they also deserve your thanks if you are on YouTube. They are the reason why, I am here and why you are here too, together. So thank you very much. And for those of you who, are joining me on YouTube, all of us, thank you. Especially if this is perhaps your first time, it's very nice to be with you today. We are talking about something rather controversial.

- 00:06:50 and also something that there is so much information on. And I am really doing this public Q&A, at the request of the community. There were so many questions that came in when this three-part series, was released. If you have not seen that video series, my lovely assistant comfort will put, that the links for that in the chat. And I welcome you to watch that after this Q&A. It was, from a channeling after dark, which is a series that I usually reserve for my members. The topic, was about the origins of humanity. And it was a very in-depth and I would say energetically, intense, maybe as the right word, experience for me personally as the channel. Because I had simply, not ever seen something like that, I had never looked into it. And I want to briefly touch on that, before we really get into the Q&A, because it's important that we are all operating from the, same place and that you know where I'm operating from. So there are varying levels of access.
- 00:08:14 when it comes to anything that we can call channeled information. So I as a channeler have the ability, to communicate with multidimensional beings who exist in different dimensions, whether that is, inner earth, whether that is right here, because I can also communicate with people who have passed on, and then other beings that are in a more multidimensional space and I keep gesturing up, because I just speak to them up here in my mind, but beings like the Octurians and accessing the, akashic Records is then another part of that. So the Akashic Records, so that we can just again, be operating from the same place of understanding. The Akashic Records is not a location that you go to.
- 00:09:08 It is a frequency that exists in the field around us. So we exist in a quantum field. That's what we call it anyway. It's just the field, though. We exist in a field of information. That's what it means when we say all is mental. It's just a field of information. And different thoughts in our mind carry different frequencies, and so it is without, side of us. There are different frequencies in our world that carry different pieces of information.
- 00:09:50 When we tune into the frequency of a tree, we get different information. We have a different, energetic experience. When I tune into the frequency of the Akashic Records, I have a different, experience. There's information that comes through there. So when I am working, for example, one on one, with someone, I am accessing their field and receiving information. In this case, when I am tuning, into something that is more about the collective, I am working with the Akashic Records, which for, me are Octurian beings. That's just what it's always been. It doesn't mean that's the truth.
- 00:10:31 It doesn't mean that that's the same experience for everyone else. That's simply my experience. Arcturian beings support me in accessing information. And so when I am doing that, in this case, talking about information that again affects the collective, they are bringing, through information that is accessible and that comes in the form of images and also emotions, and also smells. Sometimes it really can be quite a visceral experience for me. It just depends, on the information. And all that being said, what I have learned over the time of, reading different Akashic Records, is that, is that when someone carries an idea or a story, it is kind of in-mashed within their field. And so I'm talking about an individual.
- 00:11:42 If an individual, for example, is carrying the story that they were Abraham Lincoln in a parallel, lifetime, then that is in-mashed in their field. And so for the somewhat untrained person looking,

at that other person's Akashic Records, that Akashic reader might say, oh, you were Abraham Lincoln, in a past life. But in actuality, it is only because that story has been woven into that person's, belief system. And the Akashic reader has not been able to discern or pull apart what is actually, real there. That is how powerful our belief system is as a human. We can make ourselves believe, something so strongly that it actually becomes in-mashed in our field. And that can take the form, of all kinds of things. It can take the form of political belief systems. It can take the form, of creation story belief systems. It can take the form of limitations, of disease, etc.

00:12:52 Because all is mined. So when we choose to believe something, it becomes in-mashed in our field, and now that is the identity that we are wearing. Okay, that's clear enough. If you need to sit, with that longer, I understand it's a tricky thing to get. But I'm going to now take that example, that analogy and explanation, that is the truth also on the massive collective scale of the, entire earth. What do I mean by that? If a huge group of people is told the same story about where, we come from, about how the earth was formed, that belief system becomes so enmeshed that we, cannot pull apart the truth. No matter how psychic someone is, you can't separate it because there, are so many people believing that is true, that it is the truth now, because we create our reality.

00:13:57 That's part of the reason why believing different news stories when we can't know if they're true, can be somewhat damaging because it might just be a story that someone wants us to believe is true, so that we actually make that our reality. Okay, that's what I'm going to leave there because that's, a bigger conversation. The reason why I'm saying all of this is so that you can understand, when accessing information like what I am accessing, I'm going to just tell you right here and right now, there is no way to know what is true. Let's just keep that really straightforward. There is no way to, know. So including the videos of this origin series that has come out, I cannot prove to you that, that's true. I can share with you the information that came through and the experience that I had with it, but there's no way for me to tell you that it is 100% accurate, particularly because, so much of our history has been intentionally wiped away, intentionally fragmented, distorted.

00:15:22 to such a significant degree that when we talk about the cycles that humanity has gone through, the rise and fall of humanity over and over and over again. The majority of the world of our world, still only talks about the origins of humanity being 5, 000 years ago, which is laughable. That's, actually hilarious that like civilization in the way that we deem civilization and then finally, they're started to be things coming out longer and longer and many of the textbooks in schools, I was a teacher, are not updated to represent what we now know. So the same story is being perpetuated, even with new information. Okay, so when we talk about the rise and fall of humanity that has, happened many, times, there have been points during that fall where the memory, the collective memory, has been for the most part eradicated, where it is as if we fell, completely unconscious. We didn't just fall from grace in terms of, oh wow, we kind of messed up.

00:16:48 but we know how to do something differently. We fell all the way down and got knocked out and then, when we woke up we said, I don't remember anything. That's what has happened now. A couple of times, and so there is no way of knowing when we talk about certain periods in history

what actually happened, because we are told a story that we do not know is true. So the reason why I have to make all of, that clear here and now is because perhaps you have received different information or perhaps you carry, a completely different belief system entirely about anything that I'm going to talk about today, and what I want to be very clear here is that whatever I talk about today, number one, do not go, to the bank with it. There is no way to know. We're going to do our best. We're going to show up, in humble reverence to receive this information and we can't know, but you're heart.

00:17:51 That place that we tuned into at the beginning, where hopefully you're keeping an ear turned, toward, your heart is able to tell you at the very least what is resonant for you at this time, and what can serve you. That doesn't mean it's the ultimate truth. It means that it, can serve you at this time and that is the truth when it comes to channeled information. And from, anyone, it doesn't make it 100% true even if you trust the channeler. It means that it is serving, you at this time if your heart is resonant with it and that's all that matters. That's all that, matters. And you may say, but why? The truth is ultimately what matters. Truth is only, helpful when it does not harm you and the origins of our species as well as the true history of what, has happened here on earth is incredibly complex and also very painful. There are certain truths, that can only come about when we have the capacity to hold the level of pain that is associated.

00:19:11 with that truth, both individually and collectively. So there is information that I can receive when, I'm just alone that is not the same information that can be received when I am doing something, publicly for a group of people because what I can hold may be different to what the entire group, can hold. It is also true that in this case because you are choosing to be with me, part of what I do is I open my heart field to hold everyone. So you end up having a greater, capacity to hold things than you normally would otherwise but that's still where we're working, as a very large group here. So I can't tell you what the full capacity is. I can only tell you how it, works. So when it's important to know again that the history of our earth is far, older than what, is talked about and it goes beyond carbon dating and there's a whole explanation that I could talk, about with carbon dating that I learned about in Egypt but I won't go into that right now that's a.

00:20:27 whole separate video perhaps that we'll talk about some days to why that's inaccurate. But it's important to know that we are working from a much older timeline and I have had, different experiences as a child where I have remembered these parallel lifetimes that go back, over 250,000 years ago and as a child I mean that number didn't mean anything to me. It's still, kind of doesn't means more to me now than when I was a child but I couldn't understand what, I was seeing but the number of wars that have been on this planet, the number of times that we have, had civilizations and what we can call species or representations maybe of humans, it's a countless, number of times. I cannot tell you how many times it has been. I don't know. It's been a lot. So, that comes to one of the very first questions actually which is which I will maybe all safe.

00:21:30 I'll save that. I'll get there. Because people had a lot of questions about if the on and, hockey created us and or whatever involvement they had on our planet then what about the, lemurians and the Atlantians and these other civilizations what about them and how does that, all fit in. So I will get there. Just two other pieces that I want to say when it comes to, channeling and

accessing information. The differences in channeling are which I will go into this I suppose, more further I think in a video because I think it would be quite helpful. There are people who channel, their higher self but they perceive their higher self as some other type of being. So perhaps they, perceive their higher self as a Syrian or a pleiadian or an angel. So they don't know that what, their channeling is actually their higher self and again there's nothing wrong with that that's, lovely. There is value in having that perspective of a higher self and then there are people.

00:22:33 who are channeling actual multidimensional beings. There is a difference there. I really encourage, you to feel your heart with that information. The feeling of someone channeling from their higher, self whatever they may call it versus someone channeling a multidimensional being. There is a clear, difference in the frequency that you feel. A very clear one whether it's pleasant to you or not, beside the point. You feel a distinction. It is important to be able to discern that information, so that you can determine for yourself. Whatever the channeled information that you are receiving is, the frequency that that's coming from is also being interpreted through the human, that you're now receiving and so what does that do for you? What is the kind of perspective that, it actually gives to you? That's a very important thing to keep in mind when you are listening to, channeled information. It is not about taking everything in and saying yes to everything or no.

00:23:48 to everything or I don't like the way that human looks so I'm going to say no I don't care about anything, coming through them. It's not about any of that. It is about the frequency that you are feeling, and does the truth that is coming through them does it resonate with you and that is truth with, a lower case T by the way because truth with a capital T doesn't have any words.

00:24:10 Truth with a capital T cannot be put into words. You cannot express the divine in a word. It's not possible. It makes me want to cry. It's not possible. It's a feeling. It's a full experience that you cannot put into words. That truth is the only truth that is important, to me and along the way, if giving information like this about the origins of humanity, if it helps people get closer to that truth because perhaps it helps them remove some of these very, long-held belief systems and rigid structures that are in their mind, then beautiful. It is, serving a purpose. The purpose of expressing this information and all of the questions that I will, go through today, it is not about giving you truth with a capital T. It is about giving you another, perspective. Me showing up humbly to see what comes through. That's what we're doing.

00:25:28 And the final piece about this is that there is certain information as I mentioned, that is only accessible based on the person who is accessing it, so the channeler at the time. Also based on the people who are receiving it, as well as based on if humanity is collectively, ready to receive that information. The majority of channels that I know and trust that have tried, to access the very, beginning of humanity, they can't get there. Is no way to get, actually to the true beginning origin, what is happening, they can't get there because it's, blocked. There is vague information that's given and then we can't get there anymore.

00:26:12 So just know that we're going to look into what we can today and it's very important that, throughout this time you keep an ear turned toward your heart. You have a piece of your awareness, resting in your heart space while you are receiving this today. Because it's not

about the words, it's not about the words. It's about the frequency of the transmission that is beyond words.

00:26:42 It's beyond that. And it's subtle and it takes practice to tune into. So while you're listening, you say, I don't feel anything in my heart. It just takes, it's going to take a little more time, for you. Your heart will bloom in the time if you allow it to and if you continue to give your attention, to it. And then you can never be let astray. And that is what I want for each and every one of you.

00:27:09 So the first question, by the way, there were hundreds of questions. So thank you all very much, and I'm going to do my very best to get through as much as I can today. And the very first question, that feels quite pertinent is from someone named Jure or Jure Buonstra. Thank you very much for, this question. The question is, why do we have to know about this information? And what you, does it have for our present incarnation, this human life? I don't want to fill my mind anymore, with all kinds of information, which I don't necessarily have a use for, even though it's truly, fascinating. Beautiful. Thank you for having that be your truth. That is the same that I feel.

00:27:54 And there was a follow-up question or a similar question for giving me from someone named, Jenny Parnell, which is why are you slash we being told this now and what is the purpose? So that, is the question that I want to start with. I'm going to take a moment to call back in these, beings. And I should explain, if you see me laugh or giggle like that, I'm sorry. It is because, well, I'm not sorry, but please understand that it is just because when I am tuning into the, arcterians, they have a very overwhelming energy of joy about them and it tends to make me, kind of laugh. And so, and they also have really beautiful faces. And so when I see them, it's, sometimes that happens. So please just, please just disregard that throughout this time and don't, be distracted by it. I'm going to do my best not to, but it does tend to happen. So I'm just going to, ask them why what is the purpose of us knowing this now? So just one moment, please.

00:28:59 Hmm. Okay. So they are saying it is time for humanity to learn the many versions of, truth that exist so that a greater picture, a greater tapestry of truth can finally be woven together. There are pieces and fragments of truth that exist in every story of creation. And when all of, those stories are laid out, humanity will be able to pick the pieces that actually fit together, in truth over time. This is one of those stories. There are pieces of truth spread throughout it. And, also, the energy is, it's like a lock. There are keys that unlock secrets about humanity and, about our, it's really about our whole being as an individual, but also a collective being.

00:30:09 There are secrets that exist that can be unlocked from transmissions such as this. And they are, saying, which is why it is important to not be fixated too much on the literal definition or, translation that is given in response to these questions or in response to any previous and further, questions that I have asked or may ask in a future about this topic of the origin of humanity.

00:30:39 It is more important to feel the frequency of transmission from whomever it is that you are listening to, feel the resonance of truth. It's not about the literal definition of the words. So they are just reiterating that. Okay. Thank you. Okay. And they are saying I can begin with, some of

these questions. So this first question is quite beautiful. It is from someone named Scott, noble. Thank you again to everyone who has submitted a question. Is, he says, my question has to do with justice and karma. Quite simply do either exist or are, they constructs of the human mind and experience. It would seem that the universe slash source is, indifferent to good or bad and only intent on experiencing every facet of experience.

00:31:39 So let me tune in and ask about this. Hmm. Okay. They are saying justice and karma as, you as humans would define them are human constructs but they exist as principles in the universe. And as the terminology of quantum physics comes to be more defined, the definition of what justice, and karma are will also change. Those will, those definitions will become more encompassing.

00:32:13 They will also become more accurate because they will reflect what is happening in the space of, physics, not just what is happening from a human perception of what is just or unjust, what deserves karma or deserves bad karma. So that is going to shift over time as our own, mental constructs do. Okay. That is a very good point. So then my follow-up question would be, I'm curious if these arturians are able to give through words, although limited, a better definition of karma or justice and what that has to do with us as a species and also just as, individuals. Hmm. Okay. They're saying karma and justice are the balancing, are the scales, within the universe. So because the energy of creation that is paired also with the energy of, expression is incomprehensible to us as humans. There is no way to comprehend what is just, or unjust because it is, it is beyond understanding, it is beyond knowing. That is, that is.

00:33:34 for the one to know. The one as in the source creator is the one to know what is just or, quote unjust, which is really just a way of saying what balances the scales. So many teachings they, are saying speak about the middle path, speak about walking with neutrality, that allows one to stay, more balanced and moderated on the scales because you are not tipping too far in one direction, or the other. That is not the path as it has been described in terms of the lifestyle, accompanying that is not for every human, but the philosophy and principle of walking the middle path, is a helpful support and tool for every human. Okay. And so what about the follow-up question, about if it's, if sorcery universe does not really see good or bad, what would you say about that?

00:34:42 Okay, they're saying that is true. There is neither good nor bad. There is only a reflection of energy, of what is reflected outward and what is also reflected inward. That complex dance is a, principle in physics and cannot yet be fully understood until the power of the mind is understood.

00:35:08 For those who understand the power of thought, that dance is very obvious because it is simple, but if the mind is unclear and if the mind is unclear, then the power of thought is also, unclear, then it is too difficult to understand. There is a lack of clarity that prohibits the, understanding of that definition, the dance, of intentional thought and then receiving something, back from you because thought sends an energy out and the way that you receive that energy back, to you sends more energy back out again. That's the dance. And that's not yet understood by the, majority of humans. It is on its way, but the mind must be cleared and brought into stillness

before, that understanding actually can land. Because otherwise the ride you are being taken for a ride, rather than you directing the direction that you would like to be going in. Interesting.

00:36:22 So there actually showing a very humorous, but also what feels like a very good analogy in an image, I don't know what it's fully called, but they're showing a person riding on one of those, like electric bulls, like a rodeo bull, but it's a machine. It's like electric that pushes you back and forth. They are showing someone being on that. Is someone who's mind is not still.

00:36:59 They do not have clarity in their mind. Their thoughts are constant and streaming. And that, back and forth motion is the analogy of them having a thought sending it out going forward. And then, having a reversal thought or experiencing the energy that they sent out from that thought and sending them, backward again. And now they have another thought that sends them forward and they are just on this, ride. And it's very unpleasant after years of living that way. You don't want to be on that ride, anymore. That is exhausting and disempowering. And because you're on a machine, of course, you're, not going anywhere. You're not making any progress. You're moving really fast and you're not going anywhere.

00:37:54 That is the unclear unfocused, unpracticed mind. The practiced mind is a very easy sale, really, like a flying flight, a flight. Someone who can fly or sail very easily through the world, through the sky. And they are actually saying, this is in response to a question that is not even, on here that somebody asked about winged men that Plato apparently wrote about winged men, with wings, people humans with wings. And the question is, did people with wings exist?

00:38:48 The answer is no, it's not a literal wing. It is those who are able to fly or float above the, chaos of the world. That is a winged person. When your mind is calm and balanced and still, you are able to direct your energy toward what it is you want to be experiencing and creating. And thus, you rise above the chaos of the world, like a person with wings.

00:39:25 Okay. And again, they are reiterating that is part of the intention of sharing this information, is for people to regain a sense of clarity and direction and to get off of that bull contraption, that is flinging them around constantly. So filling the mind with information, without a clear intention of how you would like it to be received in your heart can keep you in, that kind of a back and forth flinging and loop ultimately. Okay. Thank you very much. That was, very helpful. Next question. Thank you. So thank you Scott for that question. That was wonderful.

00:40:15 Okay. So these next two questions, one is from Karina. They are similar. So I'm going to read, them and kind of look into them at the same time. The question from Karina is, can we say that the, god of the Old Testament, the God of the Jews, was the Demi Urge? And I don't know what that is, but we're going to find out or the Anunnaki slash Elohim, creators of humanity in their own image, as they use their own DNA to create us and to harvest our energy. So just to kind of summarize that, question, karina is asking if the God of the Old Testament is the same as the creators of humanity, as they created us in their own image according to the Old Testament. So is that actually referring, to the Anunnaki or the Elohim or the Demi Urge? Are those all the same? Is the question?

- 00:41:22 And then there's a follow-up question from Karina that says, why were the reptilians in Anunnaki, afraid of humans? So I will see about that too. And then this other question from David Merta, he says, I am so curious about how different religions and mythologies reflect these Anunnaki, slash reptiles, not only the Sumerian, but possibly also the biblical Elohim and Egyptian mythological, beings. It is sometimes hard for me to differentiate between archetypes and real beings.
- 00:42:00 Was Yahova and before him a star-tay or ball of the same race of Anunnaki or how do these, mythological beings differ? So I don't know about any of these things. I don't know who Yahova is or a, star-tay or ball. I also don't know what a Demi urges, but we're going to find out. So let me just ask, go in here for a moment.
- 00:42:35 Yah go ahead and start with that point. Okay, they are starting with the Demi urge. They're, giving me a definition. The Demi urge are a race of known as creator beings that came and infiltrated, the planet at a time long ago and mixed their DNA with the DNA of humanity. Okay, sometimes referred to as Anunnaki. So they are one in the same then. Yes, they are one in the same.
- 00:43:06 Okay, and the beings that wrote the Old Testament of the Bible have taken information of truth, and woven it. Wow, this is exactly what I was talking about in the beginning. Have taken pieces, of information of truth and woven it into mistruths to represent, to re-present. Wow, that's why this answers a big question that many of you have had. That is why it's not going, against free will because they're just being artists. They're being creators. Any creator, any author, any scientist, any artist, is re-presenting a truth that already exists because there, is nothing new. It's all source. So they took a truth and re-present it as truth. People believed it, and so now that was accepted as truth. That is incredibly clever. I have to say, I mean, really like, wow, of course. That's why it's not going against free will. Our artists going, against free will by painting a painting that doesn't actually exist. Nope. They're just practicing.
- 00:44:49 their rights as a creator. Amazing. The same is true with an author who writes a novel, a fictional work of art. Are they going against free will? If you have an emotional response to, that story? Nope. Well, that's really, that's clever. Okay. Well, there we go. So that's quite, fascinating. And so the other piece that they're touching on here is this very intelligent, highlighting that you made Karina of saying, made in our image, made in our image, that piece, about humans being made in the image of, quote, god, is part of what created the sense of loyalty.
- 00:45:42 Oh, wow. Is part of what created the sense of loyalty on the part of humans, to the story that was being told through the Old Testament? So again, there is truth, within the Old Testament. That must be clear because if something is an outright lie and there is, zero truth, the human heart knows that. It's very clear. It's a very clear thing.
- 00:46:18 But if there are pieces of truth woven in with misinformation, it's, you can't really tell what's true and what's not true anymore. It's just kind of all, blurred together. It's a watercolor painting now. So you don't really know where one line starts and, another line begins or ends rather. You can't really tell. So that is the case with the Old Testament.

- 00:46:45 And when a person chooses to pray or give their energy to the God whose image you are made in, you are giving that energy to these Demi urge beings. Oh, wow. I think that needs a little, more unpacking. Okay, can you say more about that, please? Because you are directing your thought, energy toward the being whose image you are made in that is told from a story that is not actually true.
- 00:47:30 It's the story of the Old Testament was created to harvest your energy from. I can understand, if that's maybe a little hard for some of you to take in. So let it be gentle. If that's a really, hard thing for you to hear right now, I can understand that. And I would encourage you to just be gentle, with yourself. And you don't have to take any of the sand if you're not ready to. Please know that.
- 00:48:02 If there, everything in its own time, let truth come to you as you are ready. You do not have to, force feed yourself this information. Okay, please be gentle with yourself. So because there are, so many people who can feel the truth of the Christ energy, that is the truth that was taken, and again perverted and woven into this mistruth that has been represented in the Old Testament.
- 00:48:35 So okay, that's really a lot to take in energetically. And so then yeah, can you say more about, okay, so then all right. So the other piece regarding how different, mythologies throughout time and different quote creator beings and stories of those creator beings. How does that connect to all of this and kind of humanity as a whole? So what they are referring to, it right now is actually the story of is that where I should start. Is the story of, um what took place in technically chem. So chem, chemette or chemette, really, is the land of pre-dynastic Egypt. So that means, egypt before recorded and written history, first and foremost. And Egypt before, the so-called dynasty of pharaohs and kings began. So the first dynasty and the first pharaoh, is has the name Ra There are I believe eight dynasties that the pharaoh or king, that was leading during that time is a what most people would call a mythological being. So Ra.
- 00:50:26 is the falcon headed God. Most humans on this planet would say I don't know why the Egyptians said, that was a pharaoh ruling because about eight dynasties later, it's only humans that are ruling. So Ra was this quote mythological creature, but he actually was not. He was not human, but he was real. And so Ra was there was an expression of Ra and during this time of the, dynasties beginning, the magic and truth of chem was being perverted, distorted and lost.
- 00:51:13 So okay, a little more context they're saying to help some of you, the great pyramids, were not built. Sorry to laugh. They were not built in the time frame that we are told they were, built in. They are much, older than what we've been told. They are not the burial grounds of kings.
- 00:51:39 And during the time when those were built, as well as many other sacred geometric structures that are, powerhouses of energy in that land, when those also were built, that was during the time of chem. Then comes this distortion and perversion of what I will just call magic, the use of energy, the righteous use of energy in the words of Yeshua, the righteous use of energy.
- 00:52:17 That started to be lost. And so now, along comes the dynastic period of Egypt, ra is the first, god king is what he is called. And there was not just one Ra. And this is how the story of truth, was woven in with mistruth and the energy was even more siphoned away from the people of Egypt.

- 00:52:48 The false god Ra expressed himself in physical form. And I'm going to be somewhat abstract to try to, give you the story quickly, paraded himself around as the god king, performing all of these miracles, and doing these various things to receive the praise and the energy of the people.
- 00:53:14 The real Ra known as the sun god is Christ consciousness. It is the light of God within you. Cannot see that god. You cannot see it with your human eyes. That's the true Ra. That is the non false light. It's the true light of God. That is that was meant to be Ra, which is why this false Ra came and took on that name. And so anytime the Egyptian people were, giving their energy sacrifices, their festivals, whatever it was that they were doing, toward Ra, they were giving it toward the visible Ra, the false Ra. Because the invisible Ra, you had to tune into that yourself. You couldn't see it. So that is the same story as Yeshua.
- 00:54:21 It doesn't mean that it happened the same way. It's just the same energy. It's the same pattern, that came about, that the result has been. The difference I will say and what needs to be noted, is that never before had there ever been a being like Yeshua. Unique amongst, the stars of this universe, simply because of how he was made. That's it. It's very simple.
- 00:55:01 A master among masters. The way that he was able to enter into human form and maintain, and return to again and again, the truth of his own light, that is what makes him a master of masters, and to give that level of inspiration of the ability for a human to look at Yeshua and say, I can do that too. That level of inspiration, the level of sovereignty that would come about, and that has come about from that, desperately the powers that want to control wanted that, thwarted, that they could not allow that to become prolific in humanity. So they took the truth, wrapped it up in a bunch of lies, represented it and called it the Old Testament. As well as, some other works of fiction, we could say, just works that come from the church that are not real, that are not the true light of Yeshua. Yes, and I am, is that, is that, is this a good energy to give, that in right now? Okay, so I'm going to give an example, an analogy that shows.
- 00:56:41 the physical representation of exactly what they are talking about right now. And again, if this is too much for you, then that's okay. Please let yourself have time to sit with it. People who pay money to the Catholic Church, now you're not, you're not only giving your prayers, to something that is false. You are giving your the physical manifestation of your life force, on this planet that comes in the form of money. Now you're giving that to the Catholic Church, saying, if I do this and believing, if I do this, then I will be saved.
- 00:57:33 That is one of the greatest forms of imprisonment of slavery because it is a slavery of the spirit. A person choosing to do that is saying, I will allow this priest and this organization called the church, to control my soul. That is a choice that you are making. And that's a free will choice.
- 00:57:58 There are things that you learn from experiencing that, but that is the greatest form of, enslavement because your soul has been enslaved by your own choice. You have chosen to believe, that whatever the church is telling you, that is what you must follow. That's very sad because that takes away all power of choice. It takes away completely your own, authority, your own autonomy, your sovereignty as the divine spark of creation that you are.

- 00:58:32 And so that is that peace right there is really an encapsulation of the story of humanity. It's a story of slavery and enslaving in almost as many ways as possible. Now, would you like to go into that? Okay. Yes? The peace that they are wanting to touch on, and a question that they are also, many questions that they are also answering now.
- 00:59:06 Can you tell me what the question was, please? What was it that you wanted to answer? Okay. Apparently, there were some questions about essentially, again, going back a little bit to, free will, but as in why were the Anunnaki allowed to do this? And then this other kind of, similar question of what about mother gaya and her free will and how does that all fit together?
- 00:59:36 And basically, like in as many words, why was this allowed? Okay. The question itself, why was this allowed? I understand your intention and that's not the right, question because now I think for those of you who have been holding that, I hope that you now, are beginning to understand. It's a matter of free will, free will was not violated.
- 01:00:04 Because they are very clever and they represented the truth. So, when it comes to, this piece of why did this happen and how does this relate to the evolution with mother gaya? Okay, there's quite a bit to unpack here that they are wanting to go into. So, can you begin there? Yes. So firstly, they are saying it is important to begin from the truth, with the capital T, which is that you as in I and you are not separate from Earth. That is a, very challenging truth for humans to understand. You feel like you are walking on the Earth, and living on the Earth. But you are not. You are living as the Earth.
- 01:01:22 And for as long as that is misunderstood, humanity will continue to destroy itself, as it destroys the Earth and machinate the Earth into an inorganic synthetic way of life. Rather than this very lush and wild expression of life because those go hand in hand. Okay, I'm going to just gauge. I'm going to leave that and let them continue rather than, going further into that piece. So, what must be understood that they are covering now, is that just as a virus came about and has entered the human system and evolves the human, system from having a foreign object within you, your system must evolve around that.
- 01:02:38 That virus is like what has happened with the Anunnaki. They are like a virus. It's not necessarily something to completely expel. It could be, but the ultimate gift of their, presence is the evolution of our species in a much greater way than previously would have been possible. Okay, and so a piece that they are also focusing on is that it's important to know, that like what can happen with any virus, forgive me, tears. What can happen with any virus, is it can leave the being somewhat weakened for a time. So, even overcoming a virus, your immune system may still be a bit weakened because it has given so much, it has just, expanded so much of its own reserves to fend off the virus, that even in the process of it, growing stronger, it now needs a significant time to rest so that it does not overdo itself.
- 01:03:58 That is a bit like what humanity has gone through and is currently going through. It's part of the reason why so many beings who have had many lifetimes away from this planet, chose to come here because this planet was so weakened after experiencing so many viruses, and so many

cycles of rise and fall and rise and fall. Many beings came to incarnate as a way, to strengthen the energy like a whole bunch of white blood cells coming to the site of a virus.

- 01:04:41 So, here we are, coming to try and strengthen this living being and to become the living being, ourselves to give our own life force to it so that we can be strong enough to overcome the remnants, of this virus. And so there are parts of humanity that express this weakness from this virus, in different ways. It has affected different parts of our earth and therefore the parts of the, humans that live there. It has affected them in different ways. That's why there are different, groups of people who are susceptible and also inseseptable to certain pieces of propaganda, of programming, of sicknesses, of disease, of mental health crises, there are many, avenues that this weakness shows up in and different beings in different parts of the world are, affected differently for that reason. Do I want to leave that more general? Okay, they're saying no.
- 01:06:00 Okay, then let me start here. It's important to know that any strength just on the other side, is the weakness. That is a fundamental truth of the universe. Every opposite contains its opposite, and opposites are an illusion. They are the same thing varying in degrees to quote the Kavayan.
- 01:06:32 So what does that mean? That means that your greatest strength is also your greatest weakness. It also means that your greatest weakness is a representation of your greatest strength. So there are different parts of humanity as in different countries we can call now to keep things, different countries different groups of being different cultures.
- 01:06:54 They are susceptible to certain things more than another culture would be. And that's simply because there are strengths that they are carrying that are different from, another culture. And so the weaknesses that they are susceptible to are different from the weaknesses, that another group is susceptible to. And so this virus that has affected us as a collective, we are all coming about to rediscover what are our strengths. That's why there is no one, person who holds the truth and the way to do something. The idea is that you are learning your way, you are learning your strengths, your weaknesses, where do you falter and where do you excel, so that you are able to contribute that to humanity, walking as a humble sovereign being, leaving loving footprints in the consciousness for others to follow. That's the idea.
- 01:08:02 Okay, is there more that you want to say there? Okay, that is complete. And so is there more, that you want to say in general about any of that? No, that is a complete, okay next question. Oh my goodness. How is it 12 times? Okay. And that's why they only chose, this many questions. They're amazing. I really don't, I really just, I just show up and then this all, happens. Okay. So this question is, this is really actually the final question and it is, this was a question that was asked by many, people in different forms.
- 01:08:44 And that is about something that I personally have no idea. I don't know anything about. And so, I can't really give you an introduction to it, but it is about the RH-negative blood type. So specifically, there is this, again, kind of a generalized question. I will read this question, from someone named Tammy Avigai, but there were many people who asked essentially the same question.

- 01:09:14 And she writes, I would like to know more about RH-O-negative blood and the connection to other, beings and the history of this bloodline and why being pregnant with RH-positive affects the mother's, immune system and attacks the baby's red blood cells. Okay. That's quite interesting. Let's, get into it. Let me just ask, what can you tell us about this RH-O-negative blood type?
- 01:09:48 Oh. Okay. It is a, wow. Okay. This is, sorry, my human is just taking in this information. This is, this is an expression of, it is a mutation and it is a mutation that was done as part of the, hybridization program. How do I explain this to be historically accurate? This is part of a hybridization program that has been taking place for a very, for millennia, they say.
- 01:10:42 And the mutation of it has caught up. So there comes a point in the life of a cell where it mutates, once and then again and then again and again and again and again as it keeps mutating, it becomes weaker and weaker in many cases. There are more, when you take a copy of a copy of a copy of a, copy, like on a scanner, like a copy machine. If you take a copy of a copy and you keep taking, a copy of a copy of a copy, pretty soon, that final copy is quite distorted. It really doesn't, look the same. The, color has faded. The image is not very clear. You cannot read it.
- 01:11:37 That is what has happened with the RH-O-negative blood type through many copies that were done, and then those copies began to mutate. So when you have the thousandth copy of a copy, and then it starts mutating, some pretty strange things are going to start happening from that, because it's that information is already distorted and now you're layering on top of that, mutation. So what seems like the antithesis of what would be happening between a mother and child, that the mother is attacking the, baby's blood cells, right? That is like the opposite of what, you would expect to happen. That is why that would happen because the copy of a copy is very distorted, and now it's mutating. Okay. The reason why that was happening though has been happening.
- 01:12:37 It is the, it is the result of the hybridization program on our planet. So in an attempt to mix, different and it's actually, can you explain that more? What actually is being mixed? If it's not from the blood type, then what is it actually? Blood DNA and phenotype are predetermining factors for the ability to have a successful, blend and copy that is then overlaid with another copy. So it is artificial insemination.
- 01:13:30 We could say even though insemination is a specific process because you're taking a sperm and egg, that's not, it's artificial manipulation of the DNA, an artificial way to create, period. It's an artificial way to create and artificial is, a difficult word to use. What I mean by artificial is non organic. So it's not, it's not just allowing the DNA to naturally come together. It's a bit just like how artificial, insemination that, is an intentional process to bring the sperm and the egg together.
- 01:14:16 So that's like this and the RH negative blood is again the result of this attempt to do that. And I'm wondering what, when they're talking about hybridization program, what they mean and what, about this protection of this bloodline, what, is that? I don't know anything about that.

- 01:14:37 So can you say more? It was to protect a certain bloodline, aha, to enhance the features of it. So it is really, I mean truly it's what we see everywhere on this planet. When somebody chooses to, breed a dog for certain qualities and they do that generation after generation after generation, and then you end up with, sorry, I'm not very well versed on dog breeds. It's the dog that, looks like Lassie. If any of you are familiar with Lassie, I think it's like a type of colleague, I believe, but we look at the dog now and the hind legs are incredibly short.
- 01:15:28 They're very short and it doesn't make sense because they're not proportional to the dog's, front legs. And so oftentimes that breed of dog apparently has spine problems. It suffers from, issues with its spine, like spine degradation occurs within that breed of dog, apparently now. And that is, that is the perfect example of taking a copy of a copy of a copy, mutation, exists. Now the legs are short, spine degradation occurs. This inorganic way of creation, that is the, same thing with the RHO negative blood type. So that's actually kind of a simple response really, when you think about it. Okay, wow. And so is there more that you?
- 01:16:26 Okay, again, they're just they're answering this other question about that I asked with the, protection of the bloodline. They're saying that it was an attempt to protect a certain bloodline, and protect certain traits and also to bring out other traits and essentially it failed. I mean, it's a failed experiment is what should be understood. And it is not irreversible, either.
- 01:16:51 And irreversible as in, it is something that a new mutation can come out of that, is life, giving, that is life giving instead of the antitypist, antithesis, to life, which is what's, happening right now, apparently regarding a mother and the baby in the womb. So that's encouraging, I would say. It's not something that has to be there forever. It is something that can be solved.
- 01:17:26 So that's good to know. Okay, thank you very much. Okay. Wow. So that was a lot of really beautiful information. And my guides are encouraging me to, give the final word, as they're saying. And so what my heart would like to say to you, is are you still feeling your heart? Is that a place where you still have your awareness right now?
- 01:18:13 And for you to have some time to reflect after this experience, to really consider, how did this information land for you? Were there places where you had an increase or in inflammation, of emotion or of a charge that felt really uncomfortable? That does not have to mean, that I am an evil person and it does not have to mean that the information is untrue or even true.
- 01:18:54 It simply is giving you information about your journey and that is the most important thing to, leave with is your journey. And so yes, it is true going back really to the beginning of this, question, the beginning of our Q&A with the question of why this information now, it is true that our collective story gives us information about us as an individual.
- 01:19:23 That is true, which is why this information is coming through right now so that the pieces can, finally be put together. And we are each carrying a piece, each of us, each one of us on this planet, are carrying a piece of the truth. And the more that you choose to come into alignment with your heart, the more that your piece is a reflection of the whole truth, the truth as wholeness.

- 01:19:54 Not the truth as in all of the words that you can say about different stories and different, beings in different dimensions. It's not about that truth. It's about the truth of wholeness. So if the information that either you are tuning into yourself or that you are listening to from, another channel, if it's not helping you reflect that truth of wholeness, then it could be a good, time to turn your awareness to your heart and really reflect on what the purpose of taking in, that information is for you. Is it actually serving as a distraction? Is it serving as a means of, escape into what feels real, but also is something that cannot be proven?
- 01:20:52 If you are living your life, behind closed doors, behind sealed walls, perhaps behind the screen of a computer or a phone, then you are missing the purpose of this life. And it doesn't matter how many people that you listen to, that you feel like, or giving you truth, you're missing the purpose of this experience.
- 01:21:20 The origins of humanity can wait if you have not yet gotten a chance to just soak in the love, of the mother. That is our earth that we are because that's the love that allows your heart to, bloom, and that's how your peace of light comes forward as a guiding way for other people. But more importantly for you, and it contributes to the love that is available on this planet.
- 01:21:55 So, if any of this information is taking you away from the love of your heart, then please let, all of this information go. It's not serving you. Please move toward the information, that allows your genuine heart and the sincere love to bloom within you. And it is the love that is beyond comprehension. It is the love that is beyond words.
- 01:22:29 I'm telling you, once you feel that, there is no going back. There's no going back. You know too much just from feeling the love of the creator. It's not like anything you have ever felt before. Once you feel it, you know, and then you know that you know and you have a way of knowing, always because your heart is there, and the only way to do that is to continue to practice tuning, into it. So, if you are leaving with anything from here, I hope that you leave with that, with the awareness of your heart. And I hope that you choose to tune into it each and every day, and practice keeping one ear turned toward it at all times. You will never be led astray, if that is what you choose to practice. So, thank you all again very much for this experience.
- 01:23:40 I will be, I'm sure holding more live Q&As in the future at some point. No guarantees right now. If you would like to be with me in person, I'm going to be leading a retreat at the Omega Institute, this upcoming July. It would be absolutely beautiful to see you there. Really would be.
- 01:24:00 That is an in-person mystery school. And I go very deep. Many people have said, okay, yes, I want to go and will you teach me how to channel? The answer to that question is, I have to gauge where the group is. So, there are only so many people that can come to this because, the space that we're in can only hold so many people because you're going to be lying down and, walking and doing a whole bunch of things. So, the answer to that is that based on the group, maybe we will get to a place where people are practicing channeling together. And I don't know, because I have to as a teacher, my job is to gauge you where you are and I'm following your, energy and giving you all the next challenge. That's my job. So, I hope that we get there.

- 01:24:49 I have every intention of getting us there, but we're going to see. So, if you want to know, information more information about that, you can go to my website or just go to the eomega. Org, website, I believe is what it is. And I'm leading my alchemical awakening mystery school there.
- 01:25:04 It would be beautiful to see you. Thank you all again very much. It's really such a pleasure, such an honor to do this. I can't do this without you because of this collective space. So, thank you very, much for giving me the chance to tune in. And I look forward to seeing you all again very soon.
- 01:25:19 Sending my love always. May you remember your magic today. Bye for now.
